

# Mega Cal™

Production managers have long understood the importance of Calcium for plant nutrition, with the standard treatment often being gypsum, lime or Calcium Nitrate. While relatively inexpensive, none of these solutions are readily plant available, with a vast percentage of application lost in soil tie-up.

Mega Cal contains more than 70 essential nutrients that are plant-available, helping build stronger plants and enhanced soil conditions for optimum uptake.

Highly soluble, Mega Cal provides the industry's most cost-effective solution for efficient Calcium nutrition.

## Benefits

- ✔ Enhances overall crop quality
- ✔ Ultra-low input rates
- ✔ Strengthens plant cellular structure
- ✔ Enhances soil structure, creating more efficient pore spaces for nutrient uptake
- ✔ Enhances plant metabolism
- ✔ Safe to mix with all AmpAgronomy products!
- ✔ Clean, easy handling solution
- ✔ Will not corrode application equipment
- ✔ Low impurities
