TOOLS FOR GROWTH

2.5 Gallons (9.46L)

Net Weight 26.25 lbs. (11.91 kgs)

Prep & Recover is a powerful combination of highly concentrated sea plant and marine organism extracts, humates, amino acids, calcium, magnesium, complex sugars and peptides, along with key micronutrients to enhance the plant's ability to fight stress and maintain proper metabolic functions, making Prep & Recover the premier bio-nutrient product for plant health, rooting and stress reduction.

APPLICATION RECOMMENDATIONS:

Prep & Recover is a direct foliar fertilizer application. It may be tank mixed with other fertilizers or agricultural chemicals after conducting a jar test for compatibility. Always treat a small test area with any experimental blends to determine potential phytotoxicity before making general applications.

Golf Course Greens and Tees: Use two to three fl. oz. per 1,000 sq. ft. and repeat every seven to fourteen days.

Fairways: Use two to four fl. oz. per 1,000 sq. ft. and repeat monthly.

High Stress Areas: Use three to six fl. oz. per 1,000 sq. ft. Irrigate enough to ensure one inch of penetration into root zone. Repeat every two to four weeks, or as conditions warrant.

Annuals, Perennials and Ornamentals: spray soil and plants with a solution of one to two tsp. per gal. of water. Water plants thoroughly after penetration.

Planting Trees and Shrubs: Use one to two qts. per 100 gal. of water. Apply as soil drench two to five gal. per plant.

Feeding Trees and Shrubs (Injection): Use one to two qts. per 100 gal. of water.

Soil Drench and Transplants: Use 2.5 to 5.0 fl. oz. per gal. of water. Thoroughly drench each area.

SHAKE WELL BEFORE USING

STORAGE INFORMATION:

Prep & Recover should be stored in a dry controlled environment between 50-90° F. Failure to follow storage guidelines may lead to crystal formation or product degradation.

For Commercial Use Only.

KEEP OUT OF REACH OF CHILDREN & PETS
